Reasons for Allowance

Claims 15-28 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 15, 23, 24, & 26-28 are allowable because the prior art of record does not teach or fairly suggest a superconductive current limiter comprising all the features as recited in the claims and in combination with taking the central core out of magnetic saturation during the fault condition, thereby providing an impedance between the current source and the current load, as explained in Applicants' arguments.

Claims 17, 21 & 22 are allowable as they depend from Claim 16, which is also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Bauer whose telephone number is 571-272-5986. The examiner can normally be reached on M-F 9am-6pm.
